Acceleration 100 km/h	3.6 s
Torque	760 Nm
Curb weight	1533 kg
Fuel	Benzin
Type of fuel	Super-plus
Emission class	EURO4
Environmental badge	green

Details

Dodge Viper SRT10 with the 8.4 liter V10 naturally aspirated engine with 612 hp and 760 Nm of torque. The sale started in 2006 as Viper SRT-10 Coupe. The coupe wore again the concise "Viper stripes" and reminded - by its proportions - strongly to the predecessor GTS. It is noteworthy that the coupe was built on the existing roadster chassis. With the new roof structure, the coupe was thus much more resistant to torsion than the Roadster. Due to the lightweight construction, the vehicle weight is only 1,533 kg and with that an acceleration of 0-100 km/h in just 3.6 seconds is possible. This Viper has been in the same ownership since its import. The condition of the Viper is very good in relation to the kilometers and it is both accident and repainting free. To protect against stone chips, a paint protection film was attached to the front. Further information is available upon request!
